

Equine Relief[®] antimicrobial

SO MUCH MORE than just "Medicated" !!

The advanced technology of these powerful but gentle formulas was developed to destroy, on contact, bacteria, fungi and topical viruses at their source! Against bacterial caused itching or discomfort, results are usually immediate! The healing rate of wounds & dermatitis is FAST! Finally! Easy to use solutions with immediate results!

With first colt since accident

This was a tornado accident.

Wound Relief - Antiseptic Lotion

For accelerated healing on wounds, insect bites and more. No stinging or drying on open wounds! Gently helps to prevent infection and proud flesh. Many of our customers say it is effective on Sarcoids!

Antimicrobial Spray

Easy treatment against bacteria, fungi and topical viruses. Use for sanitizing wounds, for itching manes and tails, warts, contaminated blankets, brushes and cinches, hot spots on dogs, yeast or staph infections. Its gentle and non-toxic formula does not sting or stain.

"The Vet couldn't believe how quickly my mare healed! The exposed bone never oxidized from airborne bacterial!" K.Lee, Vale, SD

Equine Body Wash

(a gentle surgical scrub)

A gentle, powerful wash that starts working on contact! Use the Body Wash as a wash or spot treatment to sanitize wounds, stop bacterial caused itching, staph infections, yeast infections, insect bites, sarcoids, and anything related to bacteria, fungi and topical viruses. It's EASY! Just use it the same as a shampoo. Simply wash & rinse or spot treat without rinsing. This is also a great preventative; Simply wash your horse or dog once per month to protect their skin. Use on Brushes, blankets, girths and/or cinches too! Our gentle formulas are safe for both animals and owners!

It DOESN'T Have to HURT or STING or STAIN ..to be incredibly effective

Our customers call it "Magic!" We call it "Advanced Technology that eliminates problems quickly, gently, easily and safely!"

- Non-toxic
- Non-caustic
- pH balanced
- Safe and Gentle
- User Friendly Solutions

WILL NOT HARM HEALTHY TISSUE!

Use the Rain Rot Relief for:

- Fungus
- Rain Rot
- Hair Loss
- Ring Worm
- Scratches
- Yeast & Staph
- Sarcoids & Warts
- Prevention
- Sanitize brushes, blankets & more

hair growth was evident on second day of treatment

Rain Rot Relief deeply penetrates to reach below the skin's surface to eliminate fungi and bacteria that cause rain rot, scratches, mud fever, ring worm and much more. It's as easy to treat as shampooing your horse (or dog)! Wet - apply - wash and rinse. You can also spot treat more severe areas. Just apply a small amount but do not rinse. Healing and new hair growth is usually seen within two days. It can also be used to sanitize brushes, cinches, blankets to prevent reinfection.

Thrush Relief (gel) & Thrush Spray

Both are Safe to use! Thrush is usually gone or significantly reduced overnight! Deep tissue treatment inhibits reinfection. Non-toxic, non-caustic, safe to apply with your hands. Also good for prevention when applied every few weeks.

Professional Strength White Line Antimicrobial

Finally! Fast Results! Easy to Use! Non-Toxic! A powerful solution that Eliminates the fungus and bacteria that cause White Line Disease (or Severe Deep cases of Thrush) without damage or irritation to healthy tissue.

Canine Antimicrobial Body Wash

For Hot Spots, Itching, Fungus & Wounds. A gentle, yet powerful, wash that starts working on contact! It is as easy to use as a shampoo and/or any spot treatment.

"I've never seen a product so effective and with immediate results!"
